

**NEMATYC SML Coordinator Report
Spring 2011
Lois Martin**

NEMATYC SML RECOGNITION AWARD PROGRAM

The Award Program was established to foster extracurricular mathematics learning opportunities for students through participation in the AMATYC Student Math League. The first awards were given in Spring 2007.

Current policy is to give a \$100 award to the top-scoring student from each participating school in NEMATYC'S SERVICE AREA (MA, ME, NH, RI, VT). The winning student from each school must have taken both tests administered in the given year.

Some

Observations

- Cape Cod CC appears to have the longest involvement, and with the same moderator.
- Massasoit CC joined in 1997 and had the same moderator until Lois Martin retired in 2009.
- From 2004 through 2007, a number of colleges joined, creating spirited competition.
- Many colleges who recently joined the competition have done very well in their first year.
- Very few students repeat from one year to the next, or even from one semester to the next. It is the nature of the community college.
- More of our students are making AMATYC's NE Individual high scorer list each year.
- Last year we welcomed two new NEMATYC area teams to our competition, and they both did very well. Congratulations to NHTI: Concord's Community College and Greenfield Community College on their very successful first year of competition.
- This year, **Quinsigamond Community College** joined the competition, and finished with a first place NEMATYC win! Congratulations to moderator Philomena D'Alessandro and her team!
